HORSE RACING AT MEMPHIS.

Some Interesting Features in the American Association Ball Games.

GENERAL SPORTING NEWS OF THE DAY

Of course every baseball crank in the country knows that the National League championship opens to-day. One of the good features of the schedule has designedthat Anson and almost all of his "globe trotters" will be in harness. Certainly the old man of Chicago could arrange otherwise, but he couldn't safely put in a team that would ignore the boys who have met the potentates of camibals, Christians, Buddists, or any other kind of religious believers.

Hanlon signed yesterday, so that local patrons of the club can safely expect to see him in center field. Ed is in great shape, at least that is what he says. If practice goes toward making a man perfect Hanlon ought to be a very superior man to-day compared to his new colleagues. He has been playing, or training to play, ever since the close of last season. However, if he does get a little wild in the field and harmless at the bat, he must be tolerated. His part demands an admiration that ought to last through many dull and disappointing days. Ed Hanlon has made his mark by good and honest playing, and if he proves a failure with us the loss will be greater to him than anybody who finds fault with him. wise but he couldn't safely put in a team

A prominent member of the local team said resterday that we may for certain expect hard to understand why Rowe should not come, because, in a way of principle, what applies to one applies to the other. Hanlon states that what has been offered to Rowe has states that what has been offered to klowe has been affered to White. Nothing more or nothing less. If this is true, then we can safe-ly depend on the two players being here before long. Of course there is the other probability: As things appear at present the two teams day will be as follows:

Pittsburgs. Left Field Sullivan Center Ffeld Van Haltren First Base Anson and Base ..Pitcher... Miller Catcher Darling
The above teams mean, at least, that there may be expected a great game. The parade will start at 136 from the Hotel Anderson. From there it will proceed as published in yesterday's thespace.

THINK WE'LL WIN. The general opinion is that the local fellows will win, and if the local poolrooms had been in existence the home talent would have sold for \$20 and the other fellows for \$16. Of course there may not be that much in it, but we are bad to beat on an opening day against good

There is no reason why such a warrior as old "There's should be sent home as a nitcher of a losing team. None at all. If all stories are true, White with his big bat will be in line. If he is not, "Little Willie" can swing the hickory.

Governor Hill Says No More Games on the Polo Grounds.

PEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, April 28.-Manager Day, of the enthusiasts who have been expecting to see the nly Giants again win the championship on the polo grounds, were in despair this afternoon when the news came that Governor Hill had vetoed the polo grounds bill. The Pennsylvania Road Interested in the Subject of Grade Crossings.

PERON A STAFF CORRESPONDENT.] HARRISBURG, April 23 .- There was considerable debate on the grade crossings bill when it came up in the Senate on second reading to-day. There is a feeling among the opposition that the Pennsylvania Railroad, which has its tracks elevated to Broad street in Phildelphia, is pushing the measure to keep the Reading and Baltimore and Ohio roads out. The bill was amended in some few particulars,

The bill was amended in some few particulars, and the following new section added on motion of Senator Reyburn.

"Section 4—Where a railroad, hereafter constructed and operated by steam, desires to cross a street at grade, or where a city of the first or second class desires to open a street at grade across such railroad, either the railroad company or the city may apply to the proper Court of Equity for authority to make such crossing, and it shall be the duty of such court to examine and inquire into and ascertain the crossing, and it shall be the duty of such court to examine and inquire into and ascertain the facts in reference thereto, and if it shall appear that it is not reasonably practicable to avoid a grade crossing, or that the avoidance of such grade crossing is not necessary to the public safety, such court may authorize such grade crossing, and define by their decree the mode of such crossing, and impose such conditions thereon as, in its judgment, the public safety may require."

Senator Ross offered an amendment to permit terminal railroads to put down grade crossings where they were absolutely necessary to connect with other lines. It was voted down by the close vote of 19 to 18. The -Allegheny Senators voted for it.

Mr. Marland Says the Legislature Can at

Best Only Postpone It. THOM A STAFF CORRESPONDENT.] HARRISBURG, April 23 .- The manual training bill, on which a commission of five learned gentlemen labored at various intervals since the last session of the Legislature was indefinitely postponed to-night by a vote of £2 to 79, after the author of the bill, Colonel Bean, of Montgomery, and others had spoken in favor of it. Its opponents in debate were Mr. Lytle, of Huntingdon, Mr. Thomas, of Warren, and Mr. Cole, of Adams, who opposed it because, as framed, it would benefit the centers of population at the expense of the rural districts. Mr. Fow, of Philadelphia, opposed it because there is authority under the act of 1854 to establish manual training schools. Philadelphia has one now under the authority of that law.

Mr. Markand of Allocher. was indefinitely postponed to-night by a vote

Mr. Marland, of Allegheny, Dr. Reed, of Indiana, Mr. Roper, of Lehigh, and Mr. Billingsley, of Washington, warmly supported the bill. Their talk might be summed up in the words of Mr. Marland: "You may postpone this bill now, but you can't postpone manual training. It is bound to come—if not at this session, at the next."

Mr. Frank Gilkeson, one of the leather, with its peculiar pungent and lastfigures of the Quay-Sherman fight, arrived in the city this evening just in time to miss ing odor; but that secret of tanning piano leather is known only to a family of tanners Quay, who had started for home. He said he had come down merely to take a look around, and didn't expect to upset the ap-pointment of Hart, if that gentleman had really been fixed upon as Solicitor for the Bureau of Internal Revenue. Quay has given up the contest, if Mr. Gilkeson has in Thuringia, Germany. This leather has but one use, the covering of piano keys. A peculiar thing about it is that the skins from which it is tanned are produced entirely in America. It is a peculiar kind of buckskin. The skin of the common red or Virginia deer will not make the leather, a species of the animal known as the gray deer, and found only in this vicinity of the

PALMER FOR PUBLIC PRINTER. Intimations That the President Has Made

Up His Mind at Last. PEPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, April 23 .- It comes very straight from the White House this evening that the President has decided to appoint General Frank Palmer, late Postmaster of Chicago, to the position of Public Printer. If this be true, some other place will doubt-less be found for Meredith, also of Chicago, who had been promised the place of Chief of the Bureau of Engraving and Printing, as two Chicago men would hardly be ap-pointed to two such desirable places so nearly similar in character.

General Palmer is very highly spoken of by all who know him as eminently well fitted for the place. If he be appointed he will be known as the favorite of Private Secretary Halford, as the latter has been urging Palmer for the place on account of their old associations on the staff of the

Chicago Inter Ocean. Editor Wallace, of the Chester Times, partner of August Donath, who is backed for public printer by nearly the whole State of Pennsylvania, called on the President to-day and made a strong presentation of the business and technical abilities of Donath. The President listened well, but said nothing, as usual.

NOT TOO LATE.

Miss Drayer, aged sixteels years, daughter of Mr. Wm. H. Drayer, a well known shoe dealer, had been afflicted with Club Foot fourteen years, causing great distress and annoyance to herself and family. There was such a contraction of the muscles that she could not straighten her limb, and although she wore the usual high heel shoe, it was impossible for her to bring her heel to the ground when walking. After suffering on in this condition for fourteen years, she consulted one of the surgeons of the Polypathic Surgical Institute, and was convinced that it was NOT TOO LATE to be cured. An operation was performed, and the deformity entirely removed, and although it is now three years since the operation, her cure has remained permanent. She walks perfectly, and has no further use for a high heefshee. Her father says: "For the benefit of others I hereby cartify that the foregoing statement concerning my daughter's condition is true and correct. WM. H. DRAYER." A SHOPPING INCIDENT.

An Accident That Befel a Lady on Broadway, and The Leason It Teaches Every Man and

A well-known lady who lives in Harlem, was shopping on Broadway one day recently when a small insect flew in her mouth. She instantly coughed and so expelled it, but not until the poisonous creature had stung the surface of her throat. The poor lady's throat began to swell and it required the skill of several playsicians to save her life. The same thing that occurred to this lady is occurring every minute to most people. Hundreds of poisonous insects called "germs" are being drawn into the body with every breath. These small creatures and once begin to live upon the body and cause what is known as disease. They must be driven out. How much better it is though to kill these poisonous germs as soon as they come. And that is pure whiskey. Prof. Aussin Flint of Bellevus College, says: "The judicious use of alcoholic stimulants is one of the strikin-characteristics of progress in the practice of medicine during the last half century." Prof. Henry Mott. Ph. D., F. C. S., says: "By a most careful analysis I have found Duffy's Pure Mait Whiskey and prescribe in extensively in my practice." Rev. E. Mills, of Princeton. I owa, says: "I have used Duffy's Pure Mait Whiskey with great benefit to my wife, who is a confirmed invalid. I know from experience it is a pure and most valuable medicine. I am also using it in the case of my wife, who is threatened with consumption. I am a Presbyterian clergyman and a doctor of divinity, but I am not atrial to recommend Duffy's Mait Whiskey as the purest and most difficient tonic that I know of, and my experience is a large one.

NEW ADVERTISEMENTS.

GREAT EXCITEMENT

A short time after the attack he began to experience pain in the shoulder. The pain increased in severity for a number of days, when it was discovered that there was an accumulation of pus in the shoulder joint. Mr. Foley applied to a doctor, who opened the shoulder with the knife. Large quantities of pus was discharged at the time and a fistula formed, which continued to discharge a thin, acrid pus. In this helpless and hopeless condition he applied to the Drs.
